

I. PC Minimum Requirements

1. Pentium 4 Processor
2. 1GB Memory
3. 80GB Hard Disk
4. 128MB Video Card, 1024x768 Screen Resolution

II. INSTALLATION

You need to install the prerequisite software.

1. MySQL Database

- ✓ Install and Run MySQL by double clicking the executable file, C:\mysql\bin\winmysqladmin.exe (default directory installation)
- ✓ Enter the dummy username and password to the pop-up window and OK.
- ✓ If you see a traffic light icon in your system tray with a green light, the MySQL is UP and Ready!

2. .Net Framework

NOTE: Prerequisites Installers can be found at prerequisites folder.

After installation of the prerequisites, install and run the Sharp iDea POS Dine.

Default Administrative Account:

Username: admin

Password: admin
