

## SOLUTION DESIGN 1

GROUND FLOOR PLAN

### Hardware Requirements:

- ✓ 1 unit PC (Personal Computer)
- ✓ 1 unit Receipt Printer (76mm)

### Software License:

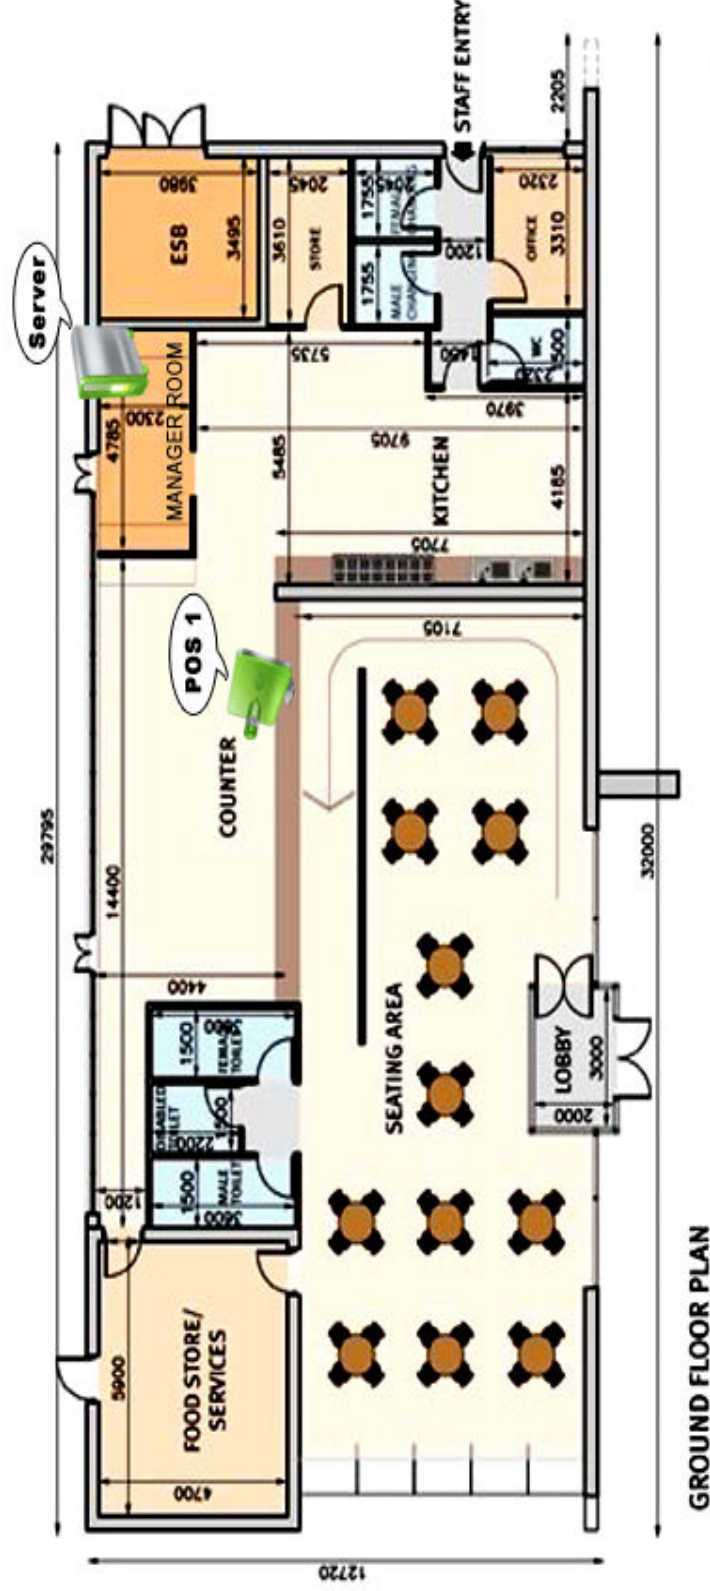

- ✓ 1 POS License for the PC

### Solution Description:

In one PC, all the processed transactions are stored in it. Input of new availability stocks will be inputted in the same PC.

## SOLUTION DESIGN 2

### Hardware Requirements:

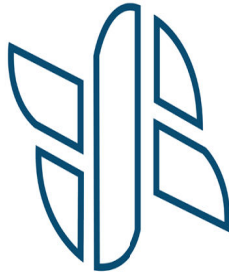

- ✓ 1 unit PC (Personal Computer)
- ✓ 1 unit Server
- ✓ 1 unit Receipt Printer (76mm)

### Software License:

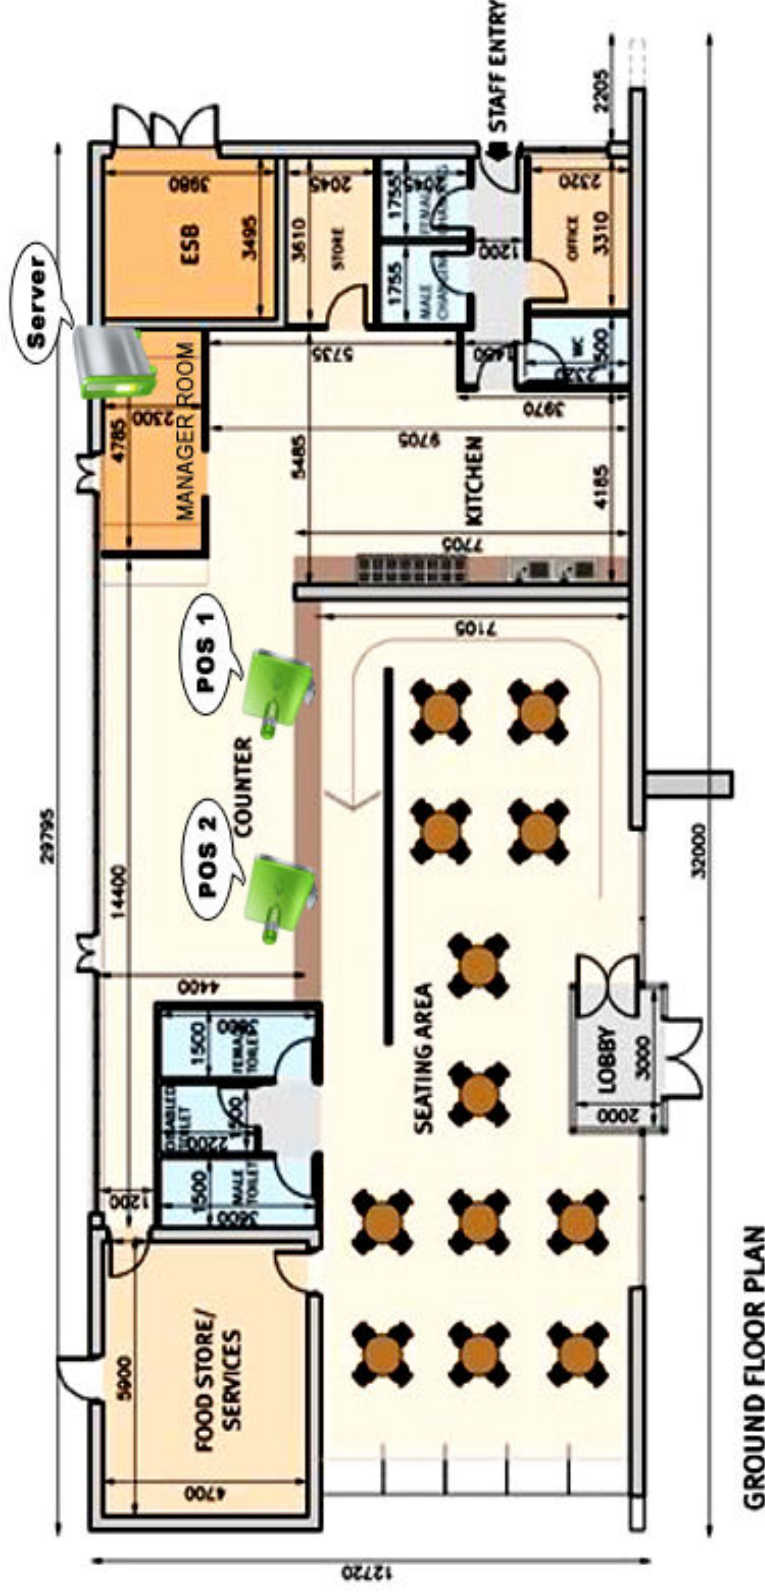

- ✓ 1 POS License for the PC
- ✓ 1 Free POS License for the Server

### Solution Description:

In the PC (POS 1), all the transactions are made but the storing of the data or transactions records are in the Server located at the Manager's room. New available stocks will be inputted in the server at Manager's room.

## SOLUTION DESIGN 3

GROUND FLOOR PLAN

### Hardware Requirements:

- ✓ 2 unit PC (Personal Computer)
- ✓ 1 unit Server
- ✓ 1 unit Receipt Printer (76mm)

### Software License:

- ✓ 2 POS License for the PC
- ✓ 1 Free POS License for the Server

### Solution Description:

In the 2 units of PC (POS 1 & 2), all the transactions are made in the counter PC (POS 1 & 2) but the storing of the data or transactions records are in the Server located at the Manager's room. New available stocks will be inputted in the server at manager's room.
